What the SCFC/ArborGen partnership means to SC landowners

The South Carolina Forestry Commission is proud to partner with commercial seedling provider ArborGen on the production, sales and delivery of forest tree seedlings for SC landowners. Taylor Nursery, near Trenton, S.C., is still owned by the Forestry Commission, but ArborGen is now providing management services to operate the nursery.

ArborGen is making capital investments to the facility to increase its production capacity; this unique public/private partnership will guarantee SC landowners improved genetics and quality seedlings for years to come.

Under this partnership, the Forestry Commission will determine seedling production for up to 5 million seedlings annually, with 3.59 million seedlings to be grown in 2023. The Forestry Commission will set prices for these seedlings grown specifically for South Carolina

landowners by ArborGen. The prices in this guide will only apply to the first 100,000 seedlings ordered each year by qualified landowners for seedlings to be planted in South Carolina.

When placing your order, be sure to state if the seedlings are to be planted in South Carolina.

As always, feedback from you on our seedling program is essential. ***Please supply ArborGen with your email address*** when placing your order so we can include you in our annual Seedling Customer Satisfaction Survey at the end of each planting season.

For more information, or if you just have questions about this partnership, please contact SCFC Resource Development Director Tim Adams at (803) 896-8802 or tadams@scfc.gov.

And don't forget to ask for South Carolina landowner pricing when making your order!

Selections	Seedlings per unit	Cost per unit	# of seedlings produced for SCFC
Cypress, Leyland <i>Cupressocyparis leylandii</i>	32/tray	\$45/tray	4,000
Cypress, Murray <i>var. Cupressocyparis leylandii</i>	32/tray	\$45/tray	4,000

Why you should choose ArborGen seedlings grown for SC landowners...

The loblolly seedlings grown for the South Carolina Forestry Commission are the top-rated selections in our 3rd-cycle orchards in Jasper County. AG-88 and AG-757 are our most productive open-pollinated families for the Coastal and Piedmont regions, growing 66% and 98% more wood volume, respectively, than unimproved commercial checks grow. Both selections score an A grade for rust resistance and straightness, and they are available to South Carolina landowners at reduced prices.

Please contact SCFC Tree Improvement Specialist Carla Castro at (803) 683-1091 for technical assistance on our pine selections.
